Health Information to the Consumer.
Eileen Emberson, speaker.
- May 27-June 2 MLA Annual Meeting. Houston, TX
- April 28 7:00 p.m. WHSLA Board Meeting
- April 29 7:00 a.m. Council of Wisconsin Health
Sciences Libraries Network.
Breakfast meeting.

WHSLA ANNUAL MEETING

What: 1983 WHSLA Annual Meeting
When: April 28-29, Thursday and Friday
Where: Holiday Inn, Hwy 14 and 61
LaCrosse

WHSLA's two day annual meeting traditionally includes continuing education courses on Thursday. This year again there is the opportunity to enhance your skills in librarianship. Two courses will be offered - a full day MLA-CE course on MeSH taught by Susan Hill of Allen Memorial Medical Library and a half-day course on the Reference Interview taught by Susan Kirkbride of Middleton Health Sciences Library, UW-Madison. The Reference Interview: Preparation for positive results, published by Management Office, MHSLN, will be provided for this course. A third course - Descriptive Statistics for Health Sciences Librarians was cancelled due to a scheduling conflict.

"Improving Your Image" is the theme of the Annual meeting on Friday. A number of health care professionals from the LaCrosse area will make presentations on various aspects of the theme.

There is an opportunity for attendees to take a Mississippi River cruise on Thursday evening if enough people are interested. Be sure to indicate on the separate form whether you would like to participate in this event.

LaVerne Samb, Librarian of Lutheran Hospital and Sister Louise Therese Lotz, Librarian at St. Francis Hospital are serving as co-chairs of the meeting.

Enclosed in this Newsletter is full program and registration information. Join other state health science librarians for an interesting meeting.

NEW REGION 3 MEETING REPORT

The first meeting of the new Region 3 (now known as GREATER MIDWEST REGIONAL MEDICAL LIBRARY NETWORK) was held at Pheasant Run, St. Charles, Illinois on Feb. 7-10, 1983. The meetings were structured to cover Organizational Development (O.D.) programming during the day, with the Regional Advisory Council sessions scheduled during the evening. Allan Yamakawa from the University of Illinois led the O.D. sessions.

In setting up the governance structure of the new region, a model was chosen in which five geographically based groups of resource libraries would elect two representatives from among themselves to sit as voting members on the Regional Council. The five groupings were:

GROUP A: JOHN CRERAR LIBRARY
AMA LIBRARY/ARCHIVE
NORTHWESTERN UNIVERSITY MEDICAL CENTER LIBRARY
SIU SCHOOL OF MEDICINE LIBRARY
INDIANA UNIVERSITY SCHOOL OF MEDICINE

GROUP B: UNIVERSITY OF NORTH DAKOTA
UNIVERSITY OF SOUTH DAKOTA
UNIVERSITY OF MINNESOTA - TWIN CITIES
UNIVERSITY OF MINNESOTA - DULUTH
MAYO CLINIC

GROUP C: WAYNE STATE UNIVERSITY - DETROIT
UNIVERSITY OF MICHIGAN - ANN ARBOR
MEDICAL COLLEGE OF OHIO - TOLEDO
CASE WESTERN RESERVE UNIVERSITY - CLEVELAND
NORTHEASTERN OHIO UNIVERSITIES COLLEGE OF
MEDICINE

GROUP D: WRIGHT STATE UNIVERSITY - DAYTON
OHIO STATE UNIVERSITY - COLUMBUS
UNIVERSITY OF CINCINNATI
UNIVERSITY OF LOUISVILLE
UNIVERSITY OF KENTUCKY

GROUP E: UNIVERSITY OF WISCONSIN
MEDICAL COLLEGE OF WISCONSIN
UNIVERSITY OF IOWA
IOWA STATE MEDICAL LIBRARY

The elected representatives from each group and their terms of office (based on calendar contract year) were as follows: Group A - Dana McDonald, Univ. Ill. 1 year; Cecil Kramer, Northwestern 2 years; Group B - Dave Boillard, Univ. N.D. 2 years; Glen Brudvig, Univ. Minn. 1 year; Group C - Karen Brewer, Northeastern Ohio 2 years; Ruth Taylor, Wayne State 1 year; Group D - Betty Sawyers, Ohio State 2 years; Leonard Eddy, Univ. Louisville 1 year; Group E - Marilyn Sullivan, Medical College Wis. 1 year; David Curry, Univ. Iowa 2 years.

The ten state council representatives in attendance and their terms of office are as follows:

- Mary Wegner, Iowa Methodist Medical Center, Des Moines, Iowa 1 year.
- Metta Lansdale, St. Joseph Mercy Hospital, Ann Arbor, Michigan 2 years.
- Eileen Emberson, Luther Hospital, Eau Claire, Wis. 1 year.
- Ardis Haaland, Dakota Hospital, Fargo, N.Dak. 1 year.
- Prudy Dalrymple, Rockford Memorial Hospital, Rockford, Ill. 1 year.
- Fran Rice, McKennan Hospital, Sioux Falls, S.Dak. 2 years.
- Pam Elwell, Mt. Carmel Medical Center, Columbus, Ohio, 2 years.
- Sue Ager, Oak Terrace Nursing Home, Minneapolis, 2 years.
- Millie Grunow, Deaconess Hospital, Evansville, Ind. 2 years.
- Pat Powell, Morehead State Univ. Kentucky, 1 year.

The ten resource library representatives together with the ten state council representatives make up the Regional Council, an advisory body to the Regional Medical Library which oversees network activities in our region. The executive Committee was elected from the Council membership with David Curry serving as the first chairperson. Betty Sawyers, Sue Ager and Pam Elwell make up the rest of the committee.

Initial discussions the first day centered on our perceptions of the possible meeting outcomes both positive and negative. Common concerns expressed covered the development of regional programs that were "valuable" to users, the need to seek user input and use this input in setting realistic priorities for Region 3. The need for open communication in all directions, cooperation and accountability were several additional outcomes discussed. Following this, Yamakawa led the group in a needs identification session which focused on our "network" needs of the next three years. These identified needs became, in essence, our strategic planning variables on which the rest of the organizational development sessions were based. Each person selected four items from the list of twenty-six identified needs. The overall priorities or "key result areas" were:

1. LOCATOR TOOLS DEVELOPMENT
2. BETTER USE OF TECHNOLOGY
3. MULTICHANNEL COMMUNICATION IN THE NETWORK
4. USE OF ELECTRONIC COMMUNICATION AND OTHER HIGH TECH ISSUES
5. DEVELOP STRATEGIC PLANNING PROCESS FOR REGION
6. ESTABLISH UNIFORM ILL POLICIES

Using these "key result areas" Tactical Action Planning Groups of five or six people were set up where each group actually laid the groundwork for upcoming Region 3 programming. Specific procedures were outlined for each priority (objective) with potential target completion dates and the individual or group responsible for its accomplishment were identified. More specific information will be published in the upcoming issue of the new Region 3 newsletter to be call 3 RESOURCES.

Wisconsin Representative
to Regional Council

NOMINATING COMMITTEE REPORT

The following people have been nominated for the offices of president-elect and representatives-at-large.

President - Elect

Margaret Grinnel
Mendota Mental Health Institute
Madison

Sharon Hoeper
Mercy Medical Center
Oshkosh

Representative-at-large (Elect six)

Susan Anderson
Columbia Hospital
Milwaukee

Anna Green
Milwaukee County
Mental Health Inst.
Milwaukee

Mary Bayorgeon
St. Elizabeth's Hospital
Appleton

Jackie Glick
Froedtert Hospital
Milwaukee

Andrea Crane
Riverside Community Hosp.
Waupaca

Zena Kenyon
V. A. Hospital
Tomah

Pat Craven
St. Marys Hospital
Madison

Mary Alice Kuehling
Methodist Hospital
Madison

Linda Oddan
Medical College of
Wisconsin
Todd Wehr Library
Milwaukee

The Nominating Committee

Al Zimmermann
Joan Zweifel
Co-chairs
Midge Wos

WHSLA LEGISLATION COMMITTEE

The WHSLA Legislation Committee met in December to discuss the Committee's function and priorities for this year. WHSLA President Anne Taylor attended the meeting and worked with committee members in expanding the functions of the Committee. The two new functions in the following list are underlined.

WHSLA FUNCTION OR ASSIGNMENT: (as assigned by the WHSLA President)

1. The Committee shall serve as a clearinghouse of information on state, regional and national legislation and government action related to libraries and librarianship and keep members informed on a regular basis through the WHSLA Newsletter.
2. When appropriate, write and/or inform members to write elected officials on matters affecting libraries and librarianship.
3. Provide liaison with MC/MLA Legislation Committee.
4. Provide liaison with other state library legislation committees.

There were two main agenda items at the meeting:

1. Preparation of an Information Paper to members regarding steps to be taken on the proposed changes of the Federal Medicare/Medicaid Conditions of Participation, specifically on the proposed deletion of a requirement for hospitals to have a medical library.

You all should have received a memo from Mary Blackwelder and myself giving information regarding the proposed changes in regulations for hospital participation in Medicare and Medicaid and the effect on hospital libraries. The WHSLA Newsletter has also been providing up-to-date information on this issue. I hope we were able to generate many letters to the Department of Health and Human Services on this important issue.

2. WHSLA Legislation Committee communication chain in Wisconsin.

Legislation Committee members also discussed the important issue of how the Committee disseminates information to members and to others in the state. The hope was to effect a legislative information chain which was sensible, effective and efficient. (The MC/MLA Legislative Committee was also interested in this information.) The procedure which was established tries to take into consideration individuals and groups (Council of the Wisconsin Health Sciences Libraries Network, Wisconsin Library Association Library Development and Legislation Committee as well as WHSLA members) who might be interested in relevant issues. It also attempts to establish a method for disseminating information quickly in emergency situations such as the Medicare/Medicaid proposed regulation changes. The proposed procedure for communication is as follows:

The WHSLA Newsletter serves as the usual communication method.

Action papers, defined as critical communications to those concerned about current issues requiring timely action or reaction, are also sent. For timely communications or action papers, the Legislation Committee prepares an action paper, e.g. sample letter to legislators or outline of pertinent information. The materials are then sent, with a cover letter, by the Legislation Committee Chair:

- to the CWHSN President who distributes it to council members who, in turn, distribute to consortia members
- to the WHSLA President who sends a copy to all WHSLA members
- to the WLA Library Development and Legislation (L D and L) Committee and, if possible, to its Legislative Network representatives. (In most cases materials will go to the WLA Library Development and Legislation Committee and its Chair. The Committee Chair then distributes the materials to WLA Legislative Network representatives. In situations requiring a timely dissemination of information, the materials would be sent directly to the Legislative Network representatives by WHSLA Legislation Committee Chair.)

Please contact one of the Committee members if you have questions or suggestions about this procedure. In addition, please let me know if you would like to be part of the WLA Legislative Network. WLA Library

Development and Legislation Committee Chair, Kathy Schneider, has told me that they are looking for special library representatives.

WHSLA Legislation Committee

Co-Chairs:

Mary Blackwelder, Murphy Medical Library,
Medical College of Wisconsin, Milwaukee, 414/257-5898
Betsy Merriam, Division for Library Services,
Madison, 608/266-2800 (temporary telephone number
until April 1, 1983)

Members:

Mary Campfield, Winnebago Mental Health Institute,
Winnebago, 414/235-4910, ext. 327
Loraine Adkins, Institute for Health Planning
Madison, 608/233-9791
Barbara Doherty, St. Luke's Hospital
Racine, 414/636-2200

- Betsy Merriam
Division for Library Services

Tomahawk, WI 54487
715/453-2181

MEDLARS NEWS

Medlars Study Favorable
The November-December 1982 National Library of Medicine News reports that the Office of Technology Assessment's report was supportive of NLM's MEDLARS system and the policies that guide that system. The OTA report preface signed by OTA Director John H. Gibbons states "a principal finding is that in most respects MEDLARS is an efficient system for disseminating health-related bibliographic information".

The study was carried out by OTA analysts with advisory assistance of twenty members from the health care community. It was an in-depth report of 150 pages that addressed the "development, current status and conditions under which MEDLARS databases are made available to the biomedical community. There is also a discussion of private sector health information systems, the relationship between these and NLM'S services and pricing, and other policy issues as they relate to both NLM and the private sector. (NLM News p.3) The full report - MEDLARS and Health Information Policy: A technical memorandum, September 1982, is available from USGPO for \$6.50. Stock number 052-003-00891-2. Middleton will be receiving this report.

New Computers

The recent installation of two new IBM 3033 processing units and equipment to couple them as a multi-processor system has resulted in expanded capacity of the NLM computer. Because of this, services through SUNY of Albany, NY have been discontinued. Since 1973, SUNY has acted as a back-up to the computers at NLM and since 1980 new users were assigned access to SUNY as their primary computer. The new system will provide room for future developments.

MEDLINE online back to 1966

The new computers now allow MEDLINE users to search all files back to 1966 online. This allows for immediate access to all backfiles. The option to run backfiles offline for mailing the next day is still available.

The segmentation of the files is as follows:

MEDLINE	1980-present
MED77	1977-1979
MED75	1975-1976
MED71	1971-1974
MED66	1966-1970

HOSPITAL LIBRARY STANDARDS

Rosalind Dudden of Mercy Medical Center Library and Chair of the MLA Committee on Hospital Library Standards and Practices gave a very complete picture of the proposed standards at the March 3 ETN. The MLA standards will be quantitative as a guide to measure specific library services and materials. The Committee is currently doing the last draft before presenting the document to the MLA Board for approval this spring.

Participants at the ETN received a copy of draft #6 of the standards and Rosalind discussed rationale for the structure and wording. The Wisconsin Survey was one of the resources used in determining final figures.

During the program it was reported that a very recent contact with Eloise Foster of the AHA library indicated that JCAH is currently revision the JCAH Accreditation Manual. Four chapters are out for review and there is no indication that the Professional Library chapter will be in the next review group. JCAH has traditionally worked very closely with MLA in the development of the library chapter, and every indication is that they will continue to do so in the future.

THURSDAY, APRIL 28, 1983

8:00 a.m. - 9:00 a.m. Registration

9:00 a.m. - 5:00 p.m. MLA Continuing Education Course

CE 524 MESH and NLM CLASSIFICATION (Rev 1981)

Quality cataloging and classification can enhance the professional image of the library. Intended to sharpen skills in assigning NLM Classification and Medical Subject Headings (MeSH) to health sciences materials, including peripheral areas such as biology, anthropology and psychology. Emphasis placed on the use of the NLM Classification schedules, the Annotated Alphanumeric MeSH and the Mesh Tree Structures. Some emphasis placed on problems encountered by smaller libraries doing original cataloging with minimal resources. There will also be a sharing session on subject catalog arrangement, updating of subject headings and subject file development. By the end of the course, participants will be able to assign NLM Classification numbers and MeSH headings to a variety of materials, and be familiar with the basic practices of health sciences cataloging.

1:00 p.m.-5:00 p.m. WHSLA Half-Day Course

REFERENCE INTERVIEW/PREPARING FOR POSITIVE RESULTS

The communication process involved in meeting each library user's information needs influences the effectiveness of reference services, a major factor in the library's image. Covers elements of a successful reference interview, including preparing yourself and your environment, identifying the nature of the request, using appropriate verbal and non-verbal techniques and evaluating your interview techniques.

Part of the preparation is knowledge of reference tools, both in your library and at resource libraries. Some time devoted to new reference works and databases for local purchase or question referral, and to the kinds of tools available to answer problem questions identified by participants.

RIVER CRUISE

If enough people are interested, an alternative to the 5:30 p.m.- 7:00 p.m. social hour would be a two-hour river cruise on the La Crosse Queen, an authentic paddlewheeler. The cost would be \$5.50 per person, payable at registration time. Since a minimum number must be guaranteed to the charter service before we can reserve the boat, we will need to know how many are interested before proceeding with the arrangements,

If you are interested in this sightseeing tour, please sign below and return this paper with your registration materials.

I WOULD LIKE TO TAKE THE RIVER CRUISE _____
