

WHSLA 2009 -- Call for Posters

All types of libraries and all librarians, staff members and Library Science students are invited to participate.

Do you have something interesting to show your colleagues? Or perhaps you solved a unique or sticky problem? If so, then a poster session is for you. The 2009 Wisconsin Health Science Library Annual Conference in lovely La Crosse, Wisconsin will have a session for poster presentations on Monday afternoon.

Guidelines for the Poster Session

Poster sessions can introduce unique collections or services, discuss a problem and the research, action, or methodology used to solve that problem, or outline findings of research or study.

Displays should be visually appealing (charts, photographs, diagrams, graphics, illustrations, etc.) and should clearly state the purpose of the display. Displays should also be large enough to be seen from several feet distant.

Presenters should also bring handouts or other supplementary materials (no duplication services will be provided) and/or a sign up sheet to record names and addresses of attendees who would like further information. The poster size should be no larger than 4' x 6'.

Send a 250-word abstract of your session with your name and contact information by March 13 to: Mary Jo Boland (mboland@gundluth.org)

If chosen, you will be notified by March 20. If you have any questions, please call Mary Jo Boland (608) 775-1186 or Eileen Severson (608) 775-5546.
